Custom Products Is One Of Top Finishing Shops In North America

Products Finishing magazine names Custom Products to its 'Top Shops' list

CINCINNATI, Ohio – Custom Products of Litchfield, Inc. has been named one of the best finishing shops in North America, according to an industry benchmarking survey conducted by *Products Finishing* magazine, a trade publication which has covered the industry since 1938.

The magazine conducted an extensive benchmarking survey that analyzed hundreds of finishing companies in several different areas, including Current Finishing Technology, Finishing Practices and Performances, Business Strategies and Performances, and Training and Human Resources.

Only the top 50 shops were given the honor of being a *Products Finishing* magazine 'Top Shop' based on a scoring matrix in those four criteria. Seven of the Top Shops were located in Canada, and the remaining 43 were located in the U.S.

Custom Products has established itself as one of the best finishing operations in the industry," said Tim Pennington, editor of *Products Finishing* magazine. "The criteria we used was very stringent, and only the top finishing shops that excelled in all four areas made the list. Custom Products is in rare air when it comes to finishing operations."

Custom Products is located in Litchfield Minnesota, and offers operator cab and ROPS design, test and manufacturing including a variety of paint services utilizing phosphate free nanoceramic conversion coating, powder, liquid industrial single component or base / clear top coat finishes.

"We are extremely excited and pleased to be named one of *Products Finishing* magazine's 'Top Shops'," said Randy Reinke, president/CEO of Custom Products. "Our employees and management team have worked very hard to be the best in the industry, and to provide our customers with quality service."
